

“Hearts For Jesus” Mission Project

Giving Gardens

“I have given you every plant with seeds on the face of the earth and every tree that has fruit with seeds. This will be your food.” Genesis 1:29

Nearly **150 congregations, schools, and individuals** have supported Giving Gardens with **\$87,000** raised in the last two years. This has provided over **40,000 seed packets** distributed in Haiti, Central America, and Africa.

How much difference can a seed make? The garden seeds and training funded through Giving Gardens can dramatically improve the life of a child and her family.

Every \$500 donated to Giving Gardens supports:

- Garden seed packets and training that can produce nutritious vegetables and fruits, transforming sick and malnourished children into healthy and energetic boys and girls.
- Surplus food sold to purchase other kinds of food, clothing, medicine, and education.
- Seeds from the produce will be collected and used for the next season's crop.
- Seeds of faith planted in young people through special garden schools, similar to vacation Bible school, taught by trained teachers and missionaries.

The Giving Gardens Project is a collaboration with [Hope Seeds, Inc.](#), Bradenton, Florida. Hope Seeds is a Christian, charitable organization which provides seeds and agricultural support to missionaries and mission teams throughout the world. It is the goal of Hope Seeds that no person on earth should be hungry for lack of seed.
